PL – 900

Microsoft Power Platform Fundamentals

Overview

As a candidate for this exam, you aspire to understand how Microsoft Power Platform technologies can be used to:

- Develop tailored business solutions.
- Identify how Microsoft Dataverse supports the interoperability of Microsoft Power Platform.
- Accelerate business outcomes by using Microsoft Power Apps for low code/no code solutions.
- Improve processes by using Microsoft Power Automate and Process mining.
- Identify use cases for Microsoft Power Pages.
- Help make data-driven technology decisions by using Microsoft Power BI.
- Evaluate how Copilot can assist with each of these.

The exam is intended for you if you're seeking to start your journey building solutions with Microsoft Power Platform.

You can use this exam to prepare for role-based or specialty certifications, but it's not a prerequisite for any of them.

Prerequisites

The PL-900: Microsoft Power Platform Fundamentals course is designed for beginners and does not have strict prerequisites. However, having a basic understanding of certain concepts can enhance the learning experience.

Here are recommended prerequisites for individuals considering this course:

Indus Tech Services

Who We Are....

Indus Tech Services is an IT company that specializes in providing comprehensive training, consulting & implementation services for software solutions designed to address the diverse business challenges faced by organizations today. With a passion for technology and a deep understanding of business processes, Indus Tech is committed to empowering businesses to optimize their operations, boost productivity, and drive sustainable growth.

Why Choose Us...

From time to time, life serves up a profound nudge, urging us to step beyond our routines and make a difference in the world. Indus Tech Services emerged from one such compelling wake-up call. We are not just a company; we are a dedicated force with a belief in providing solutions to organizations, regardless of their size, and we infuse a human touch into everything we do.

Our Expertise

With over 25 years of collective experience navigating the intricacies of daily business transactions, irrespective of geographical, cultural, time zone, or language barriers, our team has honed their expertise to meet any challenge head-on. This wealth of experience has armed our resources with an unparalleled understanding and skill set to tackle a broad spectrum of obstacles.

Training

With two decades of unwavering commitment and a global footprint, our company is a true pioneer in the fields of linguistic, transactional, technical, and behavioural training for some of the world's largest corporate entities. Our unparalleled expertise has been refined through years of dedication and innovation, making us the go-to choice for businesses seeking transformative training solutions.

Consulting

Our company has been at the forefront of providing world-class IT consulting services to organizations spanning the globe. With an extensive and proven track record, we have honed our expertise to meet the ever-evolving technological needs and challenges faced by businesses, regardless of their scale or industry.

Implementation

Our experience covers a broad spectrum of IT implementation services, including system integration, software deployment, network architecture, cloud migration, and infrastructure setup. We understand that the successful execution of IT projects is pivotal to an organization's growth and efficiency. Therefore, we bring a depth of knowledge and a commitment to delivering results that set us apart.
